CITY NEWS.

THE DEMOCRATIC STATE CONVENTION
WILL MEET AT
Louisville, June 15, 1864.

NOTICE TO CITY SUBSCRIBERS.

The Daily Democrat delivered by carriers throughout the city will hereafter be at the rate of twenty cents per week.

Important Notice.

Owing to the increased expense of every article used in the printing business, and an advance of twenty-five per cent. on the expense of composition, we are compelled to increase the cost of the Daily Democrat. Hereafter the daily, by mail, will be seventy-five cents per month, or four dollars for six months, or seven dollars per year—always in advance.

The proprietors of the Jeffersonville Ferry Company complain of the communication in the Evening News, which states that the increased price of ferrage is only on the farmers and laboring classes. The communication was written by a gentleman in Jeffersonville, and his object doubtless was the public good. One of the proprietors of the Ferry Company says the ferrage has been raised. Foo! passengers, if they purchase tickets, get fifteen for one dollar, which is an advance of one and two-thirds cents over the old price. Passengers persons crossing are charged ten cents per trip, for the reason, that there is no intermediate change between five and ten cents that can be generally used.

The increase in wagons and other vehicles is about ten cents for two horse teams and others in like proportion. A few persons purchase monthly tickets, for which they pay three dollars per month, which would be five cents for crossing. If they cross once a day, but they cross as often as they please during the month on this ticket. The Transfer Company and all others, farmers and citizens, pay the same price.

The expenses of conducting and running the ferry have been greatly increased, they state, and one can readily perceive it, and it strikes us that the increased rates of ferrage is but a moderate per cent., everything taken into account. Our correspondent "Justice" has not made out his case. If, however, he could succeed in establishing another ferry company, the public might be better served, though it is doubtful whether at any cheaper rates than is now asked by the old company.

POLICE COURT—Tuesday, May 24, 1864.—John Eiler, assaulting his wife and carrying concealed a deadly weapon; \$100 to answer, and \$300 for twelve months to keep the peace. John Collings, drugg., &c.; fined \$5.

L. Lutberman and Leopold Lutberman's case was called up and discharged.

Jesus Rivers, Injuring and destroying the property of G. A. Jones; \$100 to answer demands.

David Talbot (t. m. c.), charged with stealing \$40 from John Davis, f. m. c.; discharged.

John Dabols, Kate Redding, alias Kate Beale, and Irene Perl, charged with snuff robberies—about thirteen cases. Watches, clothing, &c., were found on Dabols belonging to S. Uiman, and bracelets, silver plate, &c., a great quantity of which were valuable; all were held to answer in \$1,000; for Dabols, \$600; for each of the others, \$200.

George Perkins, who was held for a felony, was brought in and gave bail to answer in the Circuit Court.

Several warrants were disposed of.

BEDFORD SPRINGS.—We call the attention of our readers to the advertisement of Parker & Sons. The Bedford Springs are well known to the public generally. Their well established character among invalids entitle them to the first consideration. The fine healthy section in which they are situated, and the romantic grounds surrounding them, are inducements (aside from the medicinal qualities of the water) sufficient to secure them an abundant patronage. The large additions for the comfort and convenience of guests will render them still more attractive. The proprietors have made ample preparations for the "summer campaign" at the Springs, and will have all the substantials and delicacies of the season. They are of easy access. Read advertisement for particulars.

A large and enthusiastic meeting was held at the courthouse last night in pursuance to a call for the Democracy of all the wards to assemble to appoint delegates to the Democratic State Convention to be held in Louisville on the 15th of June next. The large east room in the courthouse was crowded. Speeches were made, resolutions passed and delegates appointed. The utmost harmony prevailed. We shall be furnished with the proceedings in time for the Evening News to-day.

COURT MARTIAL.—In the court yesterday the case of Lieutenant Rogers was called and continued for the defendant until next Thursday to give him time to summon witnesses and prepare his written defense. James Parker, of the Sixth Kentucky, was tried upon the charge of desertion. His case was finished and the findings and sentence of the court have been sent forward for approval. Owing to the absence of witnesses, no business will probably be transacted in the court to-day.

PICKET-PICKING.—Oftentimes we have heard of several ladies having their pocketbooks picked while at market. On yesterday morning, a lady whose name we did not learn was robbed of \$57 while at market. From all the indications, we judge that this pocket-picking is mark'd the work of an organized band of female pick-pockets, who are well up to that business.

Upward of five hundred prisoners arrived from Nashville last night, who were recently captured at the front. The remainder, some two thousand in number, will arrive today and will at once be transferred North. Among the prisoners are a large number of Kentuckians.

The telegraphic communication had been seriously interrupted for the twenty-four hours ending last night. The lines were up again and working well at dusk last evening, and if no further obstacle prevents we shall be supplied with our regular reports this morning.

MONTGOMERY.—Mr. Charles T. Dearing, 321 Third street, has laid on our table the Atlantic and Central monthly for June. These numbers show a decided improvement on former ones, and indicate a fair less disposition than heretofore to cabin their advertisements.

MESSRS. SHERILL & DAVIS, No. 230 Market street, have in store and for sale a choice lot of family groceries. Read their advertisement in another column.

THE RACE AT WOODLAWN YESTERDAY.—In accordance with previous notice, the great match race over the Woodlawn Course came off yesterday, and notwithstanding a shower came up about the time of leaving, there was a fair attendance, including a large number of the fair sex, who graced the stand with their smiling faces. For the match race, mille heats, for \$300 a side, there were three entries—Taylor's Olyay, Shockeney's Snow Storm, and Caldwell's Frank Harris. Before the race, the former was the favorite on the field.

At the tap of the drum for the first heat the horses all looked bright and fresh. After three false starts they got off well together, and made the first turn all abreast. On reaching the quarter pole Winchester was in the lead, Milton second, and Shockeney in the rear. On the back stretch Milton broke and Shockeney took the second position, making a dash for the lead. On entering the home stretch Winchester was still in the lead, closely followed by Shockeney, Milton last. Down the home stretch they came at a rapid rate. Shockeney is thrown from his feet, Milton takes the second place, and in this position the race was over. The mile was made in 308. After this heat Winchester became the favorite at even against the field.

The start for the second heat was a good one, Milton having the lead. Before making the first turn Winchester broke and ran for a considerable distance, and Shockeney went ahead of Milton and made for Winchester, the latter still in a run. On the back stretch Winchester got down to his work, and Shockeney made for him, but was unable to make up the gap made by the other in running. The horses pass the string, Winchester first, Shockeney second and Milton third. After a short delay the heat was decided in favor of Shockeney, according to the rules of the Association. This heat was made in 307.

For the third heat Winchester was still the favorite. At the start for this heat Shockeney was first, Winchester second and Milton last. Upon making the first turn Winchester took the lead, which he maintained throughout, winning the heat and placing 3rd.

Before making the first turn Winchester broke and ran for a considerable distance, and Shockeney went ahead of Milton and made for Winchester, the latter still in a run. On the back stretch Winchester got down to his work, and Shockeney made for him, but was unable to make up the gap made by the other in running. The horses pass the string, Winchester first, Shockeney second and Milton third. After a short delay the heat was decided in favor of Shockeney, according to the rules of the Association. This heat was made in 307.

For the third heat Winchester was still the favorite. At the start for this heat Shockeney was first, Winchester second and Milton last. Upon making the first turn Winchester took the lead, which he maintained throughout, winning the heat and placing 3rd.

The start for the second heat was a good
